

## BRITISH TAKE A SIGH OF RELIEF

Indirect News Leads Them to Think Lancers Are Safe.

## CABLE FROM METHUEN

Reports Lancers Dead and Wounded, But Says Nothing of Any Missing.

Orders Issued for a General Advance To Drive the Boers Out of Colenso—Rumor of General Methuen's Defeat—Enlistments in New York for the Boer Army—Refugees at Kimberley Now Number Over Ten Thousand.

London, Nov. 28.—[Special Cablegram]—General Methuen reports that the Ninth Lancers lost one killed and eight wounded in the battle of Belmont. He mentions no missing, hence the war office supposes the regiment which was reported to have been captured by the Boers, has returned in safety.

General Methuen's report, bulletined at the war office, caused a general sigh of relief on the part of the crowd of anxious friends and relatives who are waiting there for news of the Ninth Lancers, supposed to be missing. While Methuen did not say the Lancers joined his column, the inference at the war office that the regiment is safe is generally accepted. His silence as to the fate of the Lancers caused the greatest apprehension here.

Men were stiffening themselves for still another humiliation at the hands of the Boers and for news that the troops they thought were atoning for the disasters in Natal had themselves sustained a crushing blow.

Advance on Colenso. Durban, Nov. 28.—The Natal Advertiser says orders have been issued for a general advance on Colenso.

Gen. Sir Redvers Buller will presumably take command of the forces advancing toward Colenso.

A naval contingent from the battleship Terrible, with cannon, has left here for the front.

The Natal Advertiser says the result of an engagement at Beacon hill was that fifteen British soldiers were killed and seventy-two wounded. The West Yorkshires suffered severely. Major Hobbs is a prisoner, and several of the rank and file are missing.

A pigeon message from Ladysmith says the troops are cheerful.

Rumor of Methuen's Defeat. Berlin, Nov. 28.—The Deutsche Warte, which regularly receives communications from a Boer agency, announces that Gen. Lord Methuen has been repulsed with great slaughter beyond Graspan. The Boers attacked the British from the rear, shooting down a hundred men belonging to the naval brigade. They captured a regiment of Lancers.

William to Try Mediation. Rome, Nov. 28.—It is rumored in political circles in Rome that following the German kaiser's visit to England his majesty is likely to undertake mediation between Boers and British, on an assurance which he is said to have received that the British government will be kindly disposed toward such an effort on his part.

Many Join Kruger's Army. New York, Nov. 28.—Enlistments for the Boer army, it is learned, are making some progress in this city, though more men are volunteering in Philadelphia and other places. The recruits are found chiefly among the Irish-Americans, although Germans and men of other nationalities are also volunteering to fight under the Boer flag.

Ten Thousand to Leave. London, Nov. 28.—The Standard's Capetown correspondent says that Gov. Milner has warned the relief committees to be prepared for the arrival of 10,000 refugees from Kimberley as soon as the siege is raised.

East African Cable Down. London, Nov. 28.—A dispatch to the Daily News from Durban, dated Sunday, says that the cable along the east coast of Africa is again broken and a renewal of the delay in the transmission of news may be expected.

Tiger Bay for Germans. Berlin, Nov. 28.—It is reiterated here that the Anglo-German agreement has secret clauses referring to South Africa which will eventually allot Tiger bay to Germany.

Think the Wires Do It. Very strange to the Koreans is their new electric railway. They think that the overhead wires draw the trains along. Koreans wearing funeral hats have to pay treble fare. The hats are about two feet high and are very much in the way. The railway company does not look kindly on funeral hats.

## POINT GAINED BY CREDITORS

Supreme Court Grants Writ of Mandamus in Plankinton Bank Case

Madison, Wis., Nov. 28.—The motion made by the attorneys for the creditors for an alternative writ of mandamus in the Plankinton bank case was granted by the supreme court yesterday, returnable on the first day of the next assignment. The writ calls upon Judge Johnson of the circuit court of Milwaukee to show cause why his order appointing Irving M. Bean as assignee of the Plankinton bank shall not be rescinded, and an assignee appointed who will work in harmony with the creditors and their attorneys.

The court adjourned until Dec 15, when the following cases will be argued: No. 180, and Nos. 142 to 175, except Nos. 151, 154, 169 and 172.

## WEDDING AT BELOIT

Ceremony at St. Thomas Church Uniting Edward Brannigan and Anna Ford.

Beloit, Wis., Nov. 28.—[Special Telegram]—At 8 o'clock this morning at St. Thomas church occurred the marriage of Edward Brannigan and Anna Ford, eldest daughter of Mr. and Mrs. Wm. Ford, both of this city. The bride was attended by her sister, Miss Alice Ford, and Edward Brannigan, cousin of the groom, acted as best man. The bride was attired in a pretty dark blue traveling dress and looked very charming. The bridesmaid was also attired in dark blue with white satin trimmings. Rev. Father Ward performed the ceremony. After the ceremony the bridal party and the relatives partook of a dainty wedding breakfast at their home on Sixth street, which the groom has nicely furnished for their future home. Mr. Brannigan is an employee of F. M. & Co., and has many friends, and the bride is very well known and is also blessed with a host of friends who wish them both great abundance of happiness in their new relation.

Thomas Swale, an employee of the Beloit Iron Works, had his head badly cut with a monkey wrench at the shop yesterday. The wrench had been left on the shafting by workmen who had been making some repairs and when Mr. Swale started his machine the wrench came down on his head.

## HAD NARROW ESCAPE

The boat rolled three days helplessly in a typhoon.

## FORECAST OF WEATHER

Chicago, Nov. 28.—[Special Telegram]—The forecast for Wisconsin is as follows:

Fair and moderate tonight and Wednesday.

## TANNER OUSTS TRUSTEES

Officials of Asylum at Bartonville Accused of Misappropriating Funds.

Springfield, Ill., Nov. 28.—Gov. Tanner Monday removed J. W. Wilson of Kimmunity and Morrow P. Reed of Peoria from the board of trustees of the asylum for the incurable insane at Bartonville, near Peoria. The reason given by the governor for the removal of the trustees is that they have misappropriated the funds of the institution, and he also declares his intention of recommending to the Peoria county grand jury that the ex-trustees be held to answer for their conduct in the courts. F. W. Menke of Quincy is retained, as no charges are preferred against him.

The governor immediately named George C. Rider of Pekin and Edward S. Easton of Peoria to fill the vacancies caused by the removal of Wilson and Reed. It is said that at a conference held in the governor's office both of the men admitted the charges against them.

The governor said his course was taken because he did not care to bequeath to his successor in office any of the wrongdoings of his appointees, and that, while it was an unpleasant task and one which he had hoped to be spared, he would follow the course he had announced to the delinquent trustees—that is, report their case to the grand jury, together with such evidence as has been obtained.

## How to Take Medicine.

The taste of disagreeable medicine may usually be removed by a draught of pure cold water. In some cases this is not effectual, and then a piece of dried orange peel will answer the purpose. It is a good plan to save a little very thinly pared orange peel, and to dry it in the oven or before the fire till it is crisp and hard for taking after medicine. This costs nothing and is far better than sweetmeats.—Pittsburg Dispatch.

## DISAFFECTION AND UNREST IN CUBA

WAR DEPARTMENT WILL NOT BE CAUGHT UNPREPARED.

President McKinley Alleged To Be Maturing Plans to Annex the Island as a Territory of the United States—Rising of Some Sort Likely to Take Place in Cuba.

Washington, Nov. 28.—[Special Telegram]—The president and secretary of war are receiving private dispatches relative to the conditions in Cuba which bear out the press dispatches telling of disaffection and unrest. This is cause for the belief that the appointment of a civil governor is under consideration. It is hoped that a congressional declaration will quiet the Cubans but the war department in the meantime does not propose to be caught unprepared. There are now twelve thousand American regulars in Cuba as follows: First, Eighth, Fifteenth and Tenth infantry, Second and Tenth cavalry and Seventh artillery.

The United States troops in Cuba are distributed as follows: Nine hundred at Havana headquarters; three thousand in the department of Matanzas and Santa Clara; thirty-five hundred in the department and Province of Havana Pinar del Rio; four thousand Santiago and Puerto Principe.

If a larger force is necessary troops will probably have to be called from Manila, the condition in the Philippines no longer demanding such a large army. Those things are being considered by the war department, not in an unfriendly spirit but that an emergency may not find it wanting.

## Plans to Annex Cuba.

Congressman Hall, of Iowa, chairman of the house military committee declared, last night that he was in favor of the United States retaining possession of Cuba and that he was prepared to work for the passage of a bill providing for a larger standing army. Almost in the same breath the Iowan says he proposes to carry out the policies of the president.

He saw the president late yesterday afternoon and held a conference with him. Whether he obtained his ideas about the disposition of Cuba in that conference he did not disclose but the fact remains that at its conclusion he gave free expression to his belief that Cuba ought to be permanently constituted a part of the United States.

## Revolt in Cuba Will Be Delayed

Havana, Nov. 28.—Regarding rumors that the Cubans are planning a revolution against the United States to demand their independence, it is admitted that certain men are nursing programs hostile to the American administration. But the spread of the campaign of education is doing a great deal to offset the influence of such people and in any event no trouble is likely to occur until after congress meets.

It is a fact, however, that many Americans here believe that if nothing is done toward giving the Cubans some definite assurances, if not a precise date, regarding the independence of the island there will be a rising of some sort, although opinions differ widely with regard to what it will amount to.

## Veterans Becoming Restive.

Havana, Nov. 28.—Rumors are rife in the city regarding prominent Cubans, who are said to have taken to the woods. The reports even specify the number of men in the various provinces who have determined to oppose the Americans by force of arms. All these rumors are untrustworthy, though many persons feel that the Veterans' association is becoming restive.

Washington, Nov. 28.—Secretary Root and Adjutant General Corbin, when told of the report from Havana that 1,000 armed Cubans had taken to the woods, with a view to revolting against the United States, said they had no official information to that effect, and did not believe the report.

## CHANGES ON NORTHWESTERN

Ashton, superintendent of the Iowa division, becomes general superintendent, with office at Chicago; J. J. Slifer becomes superintendent of the Iowa division. Mr. Ashton, the new general superintendent, was born in Evanston in 1860, and his entire railroad career has been with the Chicago and Northwestern, whose service he entered as an axman with a surveying party in Dakota in 1878.

## WHITE'S BUREAU STOPS BUSINESS

ANOTHER "GET RICH" SYNDICATE BUBBLE BURSTED.

Promoters of the Scheme at Washington Disappear with \$200,000 of Other Peoples' Money—They Promised Tremendous Dividends to Their Depositors.

Washington, Nov. 28.—[Special Telegram]—Another "get rich" syndicate run on similar lines to the Franklin Syndicate in New York disappeared last night. White's bureau in the cotton exchange stopped doing business and the promoters of the firm are missing. About \$200,000 dollars belonging to depositors is unaccounted for.

Business of the firm extended all over the United States. White's bureau was operated by two young men who went under the name of Hymen. C. H. Hyman was supposed to be C. H. White who ran the firm. White's ingested advertisements in the newspapers all over the United States and promised tremendous dividends to depositors.

## THRASHER TRUST IN SIGHT

Big Concern is to Have a Capital of \$50,000,000

Indianapolis, Ind., Nov. 28.—The information was given out in this city today that the long-expected thrasher trust is about ready for its finishing touches. The plan of the big trust contemplates a capitalization of \$50,000,000, it is said, and the control of the manufacture of all thrashing machines and traction engines now on the market. A. A. McKain of this city is now in New York perfecting the organization, which, it is said, has already secured options on every thrashing machine and traction engine plant in the country with the exception of the J. I. Case plant at Racine, Wis.

The measure represents the unanimous conclusion of the committee and will be called up for consideration at the caucus of republican members of the house, which is to be held probably next Saturday. Some of the chief features of the bill are said to be:

An amendment to the coinage laws, making 25% grains of gold 900 parts fine the standard of coin measure.

An amendment to the greenback resissuance act of 1873, providing that those treasury notes shall be redeemed with gold and not reissued except in exchange for gold.

An amendment to the specie resumption act directing the maintenance of a gold reserve of not less than \$100,000,000.

An amendment to the national bank act, authorizing banks to be organized with a capital stock of \$25,000.

## STRIKE LEADER SENT TO JAIL.

J. P. Reese Sentenced for Contempt by a Federal Court in Kansas.

Fort Scott, Kas., Nov. 28.—John P. Reese, one of eight members of the national executive board of the United Mine Workers of America, who was sent here by National President Mitchell to direct the coal miners' strike, was found guilty of contempt of the federal court by violating an injunction against strikers, and was sentenced to jail for three months and to pay \$100 fine and several hundred dollars' costs. He was at once locked up in the federal jail here. His incarceration has made the strikers very bitter in their denunciation of the court. Reese is from Albia, Iowa. His conviction was based upon evidence showing that he had addressed miners' meetings in their own halls, off the coal companies' property. The court held that these addresses had a tendency to prevent the miners from working.

Gunsaulus escaped two weeks ago, but on Saturday night he returned, and in some manner had a talk with the Evans woman, who about midnight, though entirely blind, let herself down from a second story window by means of two sheets tied together, and joined Gunsaulus below. The two set out together for some one to marry them. Neither had any money, and so could secure no license. This led to their capture and apprehension in the morning, and they were returned to the almshouse, where they will be closely watched in the future.

## THE MEMORY CULTURE CLASS

New Instructions To Be Organized By Rev. Walter A. Hall.

The memory culture class to be organized by Rev. Walter A. Hall tomorrow evening, is a new thing. Mr. Hall believes that the Gospel of Christ is properly first in a Christian church, he believes that there are very many other important things that may take a secondary place. Christians need to be made as strong intellectually as possible and a part of a good intellectual equipment is a strong and trustworthy memory.

Many bright people fail to get the use of their minds they should owing to weak memories. Mr. Hall does not profess to have discovered any new method of memory culture. He will use a method much in vogue all over the country that surely develops the memory without making it dependent on crutches. He says it is not a system of mnemonics.

It is a training of the memory. The system is so easy that all can follow it. No books are necessary. There are no fees. The class will be organized tomorrow evening at 7 o'clock, instead of Thursday evening as advertised in the church calendar. The lesson will last only 7:30 when the prayer meeting will be held.

## CITIZENS FAVOR POLICE STATION

Tax Payers Say an Officer Should Be Ready for Calls.

## PRESENT SYSTEM POOR

Time is Valuable, and Delays Allow the Criminals To Escape.

Interviews with Prominent Citizens Representing Varied Interests, Show That Public Sentiment Is All One Way, and No Defenders of the Plan on Which Officers Work, Are Found—Let Your Voice Be Heard, That Folk May Judge of Matter.

November 28.

Number of Interviews to Date - - - - 21  
Favor Police Headquarters - - - - 21  
Favor of Present System - - - - 0

Up to date, twenty-one Janesville men representing varied interests have gone on record in favor of reorganization of the police department.

Gazette reporters are ascertaining public sentiment on this point, and interviews will be published as received. The Gazette will be glad to hear from everyone interested in the matter. If the people favor a change, a change will be made. Otherwise it probably will not.

So far, we know of no citizen who finds the present system satisfactory. The following expressions show which way the wind blows:

William Ruger Sr.—We should have some place where an officer could be found. Just the other night I found an intoxicated man helpless. I looked a half hour before I found an officer.

Samuel H. Stone—We need police headquarters, a place that we can reach by telephone. That is sure.

Richard Valentine—Headquarters, where an officer can be reached when wanted would seem reasonable. The extra expense would not be heavy.

A. A. Jackson—I have not given the question much thought, and therefore would not at present care to express an opinion.

Samuel Brown, turnkey at the jail—We are not supposed to answer all calls sent to the jail. That is the business of the city policemen. Beloit has a patrol wagon that answers police calls at a moment's notice.

Dr. J. B. Whiting—I am in favor of having an arrangement so that we can reach an officer. As it now is an officer is hard to find.

Mayor V. P. Richardson—We can't have all these things without an extra cost. With me it will depend on the expense.

C. K. Miltimore—I have always advocated a police headquarters and do yet. It would be a good thing.

J. Franklin Willey—A station where an officer can be found has been needed in Janesville for years. Just two weeks ago I chased all over town twenty minutes before I could find a policeman.

E. W. Lowell—I strongly favor headquarters. You may want an officer ever so bad and can not find one for an hour.

W. S. Jeffris, Fire and Police Commissioner—When you want an officer you want him bad. You go out on the street and inquire of your friends if they have seen an officer and the best they can tell you is that "one passed a half hour ago."

F. L. Stevens—I favor police headquarters by all means. We need such a place just as much as a fire station.

C. C. Bennett—One officer on time is worth a dozen after the criminal has escaped. We have enough officers now. What the city needs is headquarters.

Al Smith—Our present police force is too weak. What we need is a certain fire alarm signal that will arouse the whole town whenever a crime is committed. Police headquarters would be most valuable.

T. P. Burns—Janesville should have police headquarters and an officer there day and night to answer all calls.

J. A. Cunningham—I am strongly in favor of taxing the people so that the city can have headquarters where an officer can be found when wanted.

Hon. Hiram Merrill—The police department should be like our fire department—a minute's time at the start is worth more than an hour and a half at the end. We should have a station house for our officers.

Samuel B. Clemons—When an officer is wanted he is wanted quickly. Janesville is growing fast. We should have a place where we could be sure of reaching an officer.

G. A. Lanphier—We need police headquarters.

Dr. R. J. Hart—We should be able to get an officer when we want one, and without delay.

John M. Kneff—A station would be a good thing. They have one in Freeport. I think they use the city hall.

## Dreyfus Will Go Into Politics.

Paris, Nov. 28.—[Special Cablegram]—The Echo de Paris, says that Dreyfus will be a candidate for the senate.

## CLINTON OUTGROWS THE OLD CEMETERY.

THEY NEED MORE ROOM DOWN THERE TO BURY DEAD.

Six Acres Will Be Added to the Present Burying Ground—Thanksgiving Service in the Baptist Church—Special Sermon Series by Rev. Moore—Clinton News.

Clinton, Wis., Nov. 28.—The Clinton cemetery association will this week add to their grounds a tract of land comprising six acres, adjoining on the south, purchased some time ago of L. L. Oids at a price of \$140 per acre. Surveyor Brown of Janesville was down Saturday to measure off and lay out the new grounds into which nine blocks were formed. Some of the lots have already been staked and are now offered for sale. The addition of the new ground brings the cemetery considerably nearer town and renders more apparent the great need of laying a highway south to Milwaukee street.

It has been found necessary to change the time of holding Thanksgiving services from Wednesday evening to Thursday at 10:30 a. m. in the Baptist church. Dr. McChesney of the M. E. church will deliver the discourse as announced heretofore.

Commencing on Sunday evening, Nov. 26, Rev. William Moore, will preach the following sermons on the Book of Truth: First, "The Fair Country," second, "Love's Entreaty," third, "Handfuls of Purpose," fourth, "The Shadow of his Wing," fifth, "The Climax of Blessing." Special music will be an attractive feature of these services.

W. W. Curtiss who has spent nearly twenty years as a missionary in Japan occupied the pulpit of the Congregational church Sunday morning and gave an interesting talk on the country and his experience while there. An "Old Maid's convention" which it is said will be held in Clinton soon, is the talk of the town at present.

The attention of our citizens is attracted in several places to deep ditches in close proximity to the walks. The excavations are alright for carrying off surplus water but dangerous for people to tumble into. It has been suggested that guard rails be erected.

C. A. Salisbury and J. R. Helmer have ordered and each will soon have placed in their residences a fire proof safe for the secure keeping of books and papers.

An old fashioned spelling school is the next number on the Y. M. C. A. Lecture Course and will be held at the rooms on Thanksgiving evening. Members holding tickets are privileged to invite one friend.

The G. A. R. entertainment, "Esmeralda," will be given Dec. 8, under the direction of the Misses Andrews and Widmayer. Miss Letta Baldwin will act the leading part.

New seats have been procured and are being placed for use in the German school.

Mr. and Mrs. A. R. Lantz explain the object of their recent visit to Elgin, Ill., by stating that they had read in a newspaper of the death of Mrs. Lantz's brother, Frank Sherwood, a former resident of this vicinity and well known to Clinton people. They found to their delight that Mr. Sherwood was very much alive and weighing 250 pounds. He had not even been sick. Mr. Sherwood is a brother of the former St. Paul ticket agent, C. L. Sherwood, now at Cedar Rapids, and is on the Elgin city police force.

Some from here are planning to attend the fair and supper given by the Congregational church at Emerald Grove Dec. 7.

Joseph Gates went to Beloit Wednesday to see his son Frank, who was badly injured at the Eclipse Works lumber yards.

The supervisors of the town of Clinton, will meet at Drake's hall on Tuesday, Dec. 5, at 10 o'clock a. m. to audit accounts and transact such other business as may come before them.

Mrs. C. L. Sherwood of Cedar Rapids, Ia., has been here lately.

Mrs. M. P. Treat has returned from Freeport with her health somewhat improved by treatment taken there.

Mrs. Durham of Chicago, is visiting relatives here. She is a cousin of the Hammonds.

Mr. and Mrs. S. G. Lake will entertain Delavan friends on Thanksgiving day.

Mr. Carlson was formerly the proprietor of the Footville creamery, and Mr. Hubbard was formerly in his employ.

### Struck the Right Strain.

Editor Gazette—Your correspondent who recommends a Memorial Hall instead of a soldiers monument, has, in my opinion struck the right strain. Every member of the Grand Army and every old soldier at least, is ready to thank the few comrades who have quite recently inaugurated the idea of a soldiers monument for Old Rock, the banner county in Wisconsin, and while such a movement is highly commendable, yet we earnestly wish the money to be thus expended could be even better placed in the building of a Memorial hall. The amount of money in view would, we think, be ample. Your correspondent has suggested the use of such a building, and having knowledge of the erection of Memorial buildings in many parts of the country, and the satisfaction derived therefrom, we most heartily endorse what has been said. The soldiers and sailors of 1861 and 1865 would not enjoy it long, it is true; but their sons and daughters will remain, and they together with the young soldiers of the Spanish war, would there find a fitting place in which to perpetuate the memory of the gallant band of men who came forward with alacrity at the call of the immortal Lincoln. It is hoped that there may be forthcoming a prompt expression of all, relative to the establishment of a memorial hall at this our county seat.

## AMUSEMENT NOTES.

Manager P. L. Myers has secured the Cinescope company for three performances at the Myers Grand, Friday and Saturday evenings and Saturday matinee.

Where the "Who is Who" company appeared last season it left behind a name second to none in the fun making line, and it is safe to say that the announcement that "Who is Who" is coming to the Myers Grand Thursday, Dec. 7 will be received by theatregoers with genuine pleasure. Farce comedies too seldom possess any real worth, and when an attraction of this class really merits the attention of the theatre-going public it must be an exceptionally strong organization.

A well known critic declares the new farce "Brown in Town" which comes to the Myers Grand next Tuesday, Dec. 5, to be the best in many years. The acting is said to be uncommonly good, and those familiar with the standing of players can see that the company is a capable one. The substitution of a colored maid for the conventional Irish or German maid and the omission of a mother-in-law and an old maid are two big novelties not usually seen in farce.

### Is Arraigned for Bribery.

Lansing, Mich., Nov. 28.—The first of the persons to be indicted by the grand jury for legislative bribery was arraigned Monday. This was State Land Commissioner William A. French, who pleaded not guilty to a charge of having offered Speaker Adams of the house of representatives \$6,000 for his aid in passing the measure providing for the purchase of \$200,000 worth of law reports. French was bound over to the next term of court, bail being fixed at \$3,000.

The story that a member of the assembly demanded over his signature \$2,500 for opposing certain anti-trust legislation is now being investigated by the grand jury.

### Want Armed Men in Kentucky.

Lexington, Ky., Nov. 28.—Authority has been sent to a man here to select "100 game men who are willing to go to Frankfort armed on Dec. 12 and aid in preventing William Goebel from being inaugurated and do all they can to make the inauguration of W. S. Taylor a peaceful ceremony." Much secrecy is being used and names are not given. Other cities and towns have been asked to raise given numbers of determined men, so that several thousand volunteers will be on hand at the inauguration. Many persons are more determined than they were the day after the election that Goebel shall not be governor, and they are ready to do anything.

### Hull Favors Annexation of Cuba.

Washington, Nov. 28.—Congressman Hull of Iowa, chairman of the house military committee, declared last night that he was in favor of the United States retaining possession of Cuba and that he was prepared to work for the passage of a bill providing for a big standing army. This statement, coming from Congressman Hull, who will have more to do with shaping the future relations between the island and the United States than any man in congress, is taken to mean that the administration has decided to annex the island.

## CAN'T KEEP IT UP.

Can't Deceive Janesville People Very Long—They Learn Quickly.

It is sometimes an angry matter to fool the public, but you can't keep it up very long. They are sure to find you out; and every time a man is fooled another skeptic is made. We are naturally skeptical when reading a published statement given by some stranger residing in a far-away place, but the circumstances are entirely different when home endorsement is presented. The testimony of local citizens renders decent impossible. It is so easy for you to investigate. Read this case:

Mr. Samuel Griffin, of 208 Locust St., journeyman carpenter, says: "I had a severe attack of la-grippe and as a result weakness of the kidneys set in. These troubles from those organs were greatly disordered, annoyed me much at night and I seemed to have lost control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Dr. Williams' Pink Pills for bringing about this result."

For sale by all dealers. Price, 50 cents. Foster-McIlburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

### Clamor for Independence.

Havana, Nov. 28.—It seems certain that the Cubans will ratify the resolution proposed by the veterans' organization protesting against the establishment of an American civil government. This is clearly set forth in the cablegram which the veterans' organization of Havana has sent to President McKinley.

### AMERICA'S FIRST GEORGE.

How He Sometimes Tried to Run Away from His Admirers.

Washington was not churlish, but he had that preference for being unobserved that develops at times into a longing in a man whose life is spent in public. He quitted the Macomb house on the morning of Aug. 30, 1799. The servants were instructed to steal away at dawn, to have the carriage and luggage over the ferry at Paulus Hook by sunrise. By candlelight, Mrs. Washington, the children and the secretaries assembled in the morning room. The president appeared pleased with his stratagem. He was enjoying his prospect of concealed departure. Immediately under the window suddenly struck up on the still morning air the blaring, vigorous notes of an artillery band. From the highways and byways, scurrying people appeared. To witness his first step outside the door a thousand goggling affectionate eyes watched. "There!" cried the general, in half-comic despair—"I cannot think altogether displeased—"It's all over; we are found out. Well! well! they must have their own way." It was the "general" they waited to see, not the president. They lined the roadway from house to barge, recording every movement in observant brains. (A distinguished man can never know which of his audience is to be his biographer. It may be one of the "supers" on the stage rolling off the carpets.) The thunder of artillery could not drown the living shout that rose from the throats of the people as Washington was borne off with the rise and fall of the oars gleaming in the cheerful sun. His voice trembled as he bade the assembled crowd farewell. Though chary of appealing to it, the love of the people never failed to move him deeply. —Harper's Magazine.

### British Coastguards.

There are 4,200 coastguards stationed round the shores of Great Britain and Ireland, and they form the finest and most highly trained reserve force for the navy in case of war. When the ranks of Britain's Jack Tars are thinned by the enemy's shots in the next great naval war, it is the coastguards who will be called upon to fill their places. Every coastguard is a naval seaman of at least nine years' standing, who knows pretty well all that there is to be known about navigation, gunnery and torpedoes before he has the option of retiring from the roving life of a sailor and settling down ashore with his wife and family. The drill of these land sailors is kept efficient by continual exercise.

### The Princess Engalettcheff.

Among the American women who have married titled Europeans, the Princess Engalettcheff, who was Miss Evelyn Partridge, a Chicago belle, is one of the most accomplished, and her attractive personality wins admiration from all who are favored by her acquaintance. Much of her life has been spent in Europe, and it was there that she met the prince, who was formerly a member of the Imperial guard at St. Petersburg.

### Iowa Miners Are Grumbling.

Ottumwa, Iowa, Nov. 28.—A strike of coal miners in this section is imminent. The state legislative committee of the United Mine Workers is now in session here. The teamsters are already out and the situation is critical. The miners demand an increase of wages in view of the increased price of coal. The operators insist that the men must live up to the agreement made last April fixing a scale for a year. Trouble is already on at Oskaloosa, and it is believed a strike will become general unless the companies grant an advance.

### Two Floor Fires at Chicago.

Chicago, Nov. 28.—At 1:15 o'clock this morning flames were discovered in the planing mill of the Phillip Rinn company, Division and Crosby streets, and a loss of \$150,000 resulted.

Between 11 and 12 o'clock the department battled hard with a fierce blaze in the More & Johnson storage warehouse at 132 Kinzie street, which after nearly two hours' fighting was subdued at a loss estimated at \$190,000.

### WHAT DO THE CHILDREN DRINK?

## Low Down, Short Turn DELIVERY WAGON.

Wagons of this class that we sell are ahead of anything ever used in the city. They are up-to-date in every respect—in usefulness, beauty and durability. One great point with these wagons is the square drop axle, letting the bottom of the box down to within twenty-one inches of the ground.

The short turn is another special feature, allowing one to turn around in an eleven foot alley.

The box is put up in many different styles for convenience as delivery wagons for milk, bakery goods, groceries, laundry, meat or any other business.

NOTICE the new delivery wagon of RICHTER BROS. We sold it to them and it speaks for itself.

MUCH depends on the Harness sometimes. The breaking of a trace or buckle at a critical moment may cause disaster.

## Our Harness Is Dependable

The leather is good, the trimmings good, and the workmanship good.

## HOIST BY ITS OWN PETARD

In an editorial demanding the resignation of Secretary Long, of the navy department, The Chicago Tribune says: "Soon after the war began the 'board of strategy,' consisting of Admiral Crowsfield, Admiral Seward, and Captain Mahan, was organized, and Long at once fell under their influence, did all they advised, and discountenanced what they disapproved. At their suggestion Sampson was selected to command the Atlantic squadron, and was jumped over the heads of other officers. He was an officer of well known technical ability. During the war he accomplished such prodigious feats of valor as killing a mule at Matanzas, leading the naval parade to Puerto Rico and back, and bombarding the various fortifications, which it appeared afterward were not materially injured. If Admiral Sampson accomplished anything further than maintaining the strict blockade of Santiago, which any other officer could have done under the same circumstances, history does not record the fact.

The statements above made contradict themselves. If Sampson "did no more than any other officer could have done," does not the same reasoning apply to The Tribune's pet, Admiral Schley?

The Tribune seems to think that a successful general or a successful admiral fights his battles in person, and with out the aid or consent of an army or navy. Has any great general done more than plan his campaign, and see that his plans were executed? Could Sampson do more than he did, or did The Tribune expect him to order his ships home, roll up his sleeves, and attack the enemy single handed, armed only with the jaw bone of an ass?

The Tribune is not doing Admiral Schley any good by such alurs as the above—there are too many knot holes in its reasoning. More than this, The Tribune shows its inconsistency in another column of the same issue. In the latter mentioned editorial, The Tribune makes the criticism of General Funston the subject of a column editorial in which it asks if "there is any inducement for a man to serve his country if he is to be thus attacked by the irresponsible press." We agree with the Tribune on this point. General Funston has been unjustly attacked, but he is not the only one to suffer. There is little inducement for a man to serve his country so long as "the irresponsible press" exhibits the venalicious injustice, in attacking officers, that characterizes The Tribune's criticism of Secretary Long and Admiral Sampson.

The Chicago Inter Ocean disposes of the matter very sensibly when it says: "Those who think that Admiral Dewey's transfer of a small piece of real estate in Washington was of more importance than his transfer of an empire to the nation can have their subscriptions returned by making proper application for the same. Dimes and quarters make a good deal of noise when shaken up in a tin can, but the kind of noise they make can never drown the booming of Dewey's guns in the ears and hearts of his countrymen."

The odor that permeates the air in the city offices is the "most potent argument in favor of a new city hall that we know of. How City Treasurer Fathers can have hay fever after working all day, day in and day out, in this atmosphere is a question that should prove of great interest to the medical profession.

The "Lafayette dollars," coined in the interest of the Lafayette monument, will be issued in a few days, and will be sold at \$2.00 each. As only 50,000 will be issued, people who want samples should file their application at any local bank before December 15.

But in passing, and in order that it shall not be sprung on us by someone else, we feel impelled to remark that there is nothing hazy about the Hayes block.

The Lakes of Killarney according to the public prints, have been sold again, but up to the hour of going to press the dispatches had not been confirmed,

and the belief is still general that the reported sale is still a sell.

The people of other cities who want to see one of the finest office buildings in existence, should come to Janesville and inspect the Hayes block. In the matter of fine finish as well as in the matter of convenience it cannot be excelled. There are many city buildings that cost more money, but they are no better.

The republican administration promised the people dollars worth one hundred cents. The promise has been fulfilled—more than fulfilled, as it is now proposed to coin the Lafayette dollar, worth two dollars each.

A tax of not to exceed one mill on the dollar, in addition to what we are now paying, will give the city of Janesville the kind of police force we should have. Is it worth the price?

Billy Mason, however, has not resigned his position as official blusher.

## POWER OF AUTHORITY.

Lack of Respect for It Causes Many Political Crimes.

The authority of the state is as sacred in its own place as the authority of the home, and that nation which above all personal and individual rights holds the law of the land and the government of the nation in the highest esteem is the nation which will insure its final prosperity. And yet there are those, and they are not in small number, in this and other lands, who rebel against the constituted authority of their government, and at the same time consider themselves good citizens. European rulers have been assassinated, two attempts have been made upon the life of England's queen, and in our country Presidents Lincoln and Garfield were foully murdered. And what was the primary cause of these terrible tragedies? Nothing more nor less than lack of respect for constituted authority. And there are those today who, while perhaps they will not resort to such deeds of violence, nevertheless have a hatred of the government of the nation, because, forsooth, the political party which they favor does not happen to be in power. With such people, no matter what the chief executive of the nation does, it is wrong. No matter how carefully political affairs, the affairs of the nation, are planned and managed, the whole government in their opinion (anything but a humble opinion, by the way) consists of a set of thieves, robbers, money-grabbers and the like, who are only at the seat of government with the one intention of seeing what they can make out of their term of office. In some cases this may be more or less true; but if it is, it certainly does not excuse any loyal and patriotic citizen of this great republic from being bound to pay his meed of homage and respect for the constituted authority of the government of his country.—Donohoe's Magazine.

## Largest Moose Head Known.

A moose head whose antlers measure from tip to tip six feet and one-half inch, a head on which from tip to tip a board could be placed, the tallest of men lie down and not be too tall for the length of it—in fact, the largest moose head in the world—is the property of W. F. Sheard of Tacoma, Wash. It has forty prongs, and its immense fan-like antlers are enormous in their width as well as in height. The marvel is, that any neck could have carried such a burden.—New York Tribune.

The queen of Siam owns a thimble that was a present from her royal husband. It is made in the shape of a lotus bud, of the finest gold, and is studded with diamonds, which are so arranged that they form their names and the date of their marriage.

## Long Routes at Sea.

The longest steamer route given on the hydrographic office map is that connecting New York and Esquimaux by way of Cape Horn, 16,290 miles. This is exceeded by the track used by sailing vessels connecting New York and Yokohama, via the Cape of Good Hope. This is 16,600 miles in length.

## TEETH OF SCHOOL CHILDREN.

Eight Out of Ten Pupils Are in Pressing Need of a Dentist.

The teeth of the average schoolboy or schoolgirl of this country are in bad condition. Probably eight out of ten school children, as they average, are in pressing need of the service of a dentist. Mr. Edwin Collins, editor of the London Dentist, says that a few years ago a school committee was appointed by the British Dental Association to examine children's teeth at various ages. Over 10,000 mouths were examined, and more than 65 per cent of the boys and girls of an average of 12 years needed treatment. In 1895, out of 3,800 children's mouths inspected, only 823, or a little more than one-fifth, contained no teeth requiring filling or extraction. The report of the British army medical department for 1890 says that 506 recruits were rejected on account of their teeth. Of the 453 girls from parochial schools in London who entered domestic service in one year five-sixths had never known the use of a toothbrush. Mr. Edwin Collins writes in the Nineteenth Century: "If it were believed that the hands and feet of nearly all our children were, with ever-increasing frequency, attacked by perfectly preventable diseases that lead inevitably, when not checked at an early stage, to mortification and the necessary amputation, one by one, of all the fingers and toes, very little persuasion would be needed to induce parents, schoolmasters and the public authorities to insist on a periodical examination of the hands and feet of school children, to watch for the first premonitions of such disease, and to compel by legislation, if necessary, the early and effectual treatment of each case as soon as its first symptoms showed themselves. All that has been said of the hypothetical finger and toe disease agrees in every particular with the facts in regard to dental cases.

## HAYES BROS. BLOCK OPEN TO PUBLIC

No Finer Office Building  
Anywhere in the  
Northwest.

## EVERYTHING THE BEST

Arrangement of the Rooms,  
Finish and Appointments of  
the Highest Quality.

The Citizens of Janesville Are Invited  
to Visit the Structure Tomorrow,  
and See for Themselves—Splendid  
Work Done by All the Contractors  
—Elevator of the Most Substantial  
Modern Design—Water, Heat and  
Light Furnished All Tenants.

Janesville people will have the opportunity tomorrow of inspecting one of the finest office buildings in the northwest—the Hayes block, corner of Main and Milwaukee streets.

There may be buildings in the big cities that cost more money, but there are none more conveniently arranged, more neatly furnished or more substantially built.

The Hayes block is a model among models, and a credit to the city as well as to the enterprising brothers who own the property.

It has all modern conveniences. A three thousand dollar elevator carries passengers from the basement to the fourth floor; electric lights glimmer in every room, hallway and closet. Lavatories are numerous and handy. A big light shaft dispels the darkness from every nook and corner. Ground glass bars preying eyes, but admits the sun light to every room—even rooms that have no windows opening on the street. Every office was laid out for the comfort and convenience of the tenant—no crowding or skimping, but with good full measure of space, ventilation and light.

From the tiled floor of the basement to the topmost point of the roof, the building is complete—as complete as money and skill can make it. Well planned work has been executed scientifically and the result is all that could be desired.

**Barber Shop in Basement.**  
The finest barber shop in the city will be located in the basement. The rooms can be reached either by the elevator, or by means of an outside stairway. Big sections of grating studded with prisms take the light from above the sidewalks in the street, and throw it clear across the rooms. The floor is of tile, and the woodwork is of oak. A washstand of handsome design holding six marble basins stands near the center of the main shop and two finely appointed bath rooms will be a part of the barber shop's appointments.

The ground floor is wholly given up to stores, but there are two ground floor entrances, the main entrance on Milwaukee street and the side entrance on Main street. The outside doors are of oak. The floor of the main entrance is composed of varicolored tile, the pieces being about the size of a nickel. One man worked a week to lay these tiles. A winding stairway begins at this entrance and ends on the top floor. The finish of the stairway is mahogany with trends of stout oak plank. The stairway is wide and although it makes many turns it is not at all unhandy for the user. Big plates of glass admit plenty of light and a lost pin could be found at any point on the stairs from top to bottom.

**A Handsome Elevator.**  
It is not necessary to climb the stairs, however. An elevator of handsome design is at the service of the visitor. The metal work of the elevator is of "old copper" finish, and the car is of the same material. Four braided wire cables carry it; massive iron weights balance it; and service and emergency brakes make it safe. A rapidly spinning drum winds the cables, and the car goes up and down as smoothly, and as rapidly as could be desired. The devices for starting, stopping, and controlling the elevator are of the best, and, in fact, no more modern arrangement could be had. From the big mirrors in the car, to the smallest bolt and nut, everything is complete—as complete as \$3,000 could make it. The usual call bells are found on every floor. No expense was spared in providing elevator service, and human life will not be risked upon a makeshift—Hayes Brothers do not do things that way. Electric power is used.

**Rooms Handsomely Finished.**  
The offices are finely appointed. The windows are composed of two big lights of glass. The floors are of oak, as are also the window and door casings. The doors are of heavy design, and the hardware is of the best. The knobs and trimmings are of plain black metal, and upon each knob is the monogram H. B. The offices are identical in finish, and the partitions are composed, as largely as possible, of ground glass.

The hallways are all floored with tile. The design is pretty, and the work is perfection. The woodwork in the halls is all mahogany finish—grainy pieces of wood, that make the workman's skill show to advantage. The inner hallway runs around a big light shaft, and from this hall doors open into both inner and outer offices.

Every room is supplied with hot and cold water, and electric wires peep from every ceiling.

**MENU FOR WEDNESDAY.**

The more hidden the venom the more dangerous it is.—Marguerite de Valois.

**BREAKFAST.**

**EGGS BROILED.**—Six eggs, half a cupful of milk or, better still, of cream, two mushrooms, one teaspoonful of salt, a little pepper, three tablespoonfuls of butter. Cut the mushrooms into dice and fry them for one minute in one tablespoonful of butter. Beat the eggs, salt, pepper and cream together and put them in a saucepan. Add the butter and mushrooms to these ingredients. Stir over until the mixture begins to thicken. Take from the fire and beat rapidly until the eggs become quite thick and creamy. Have slices of toast on a hot dish. Heap the mixture on the toast and serve immediately.

**STUFFED PEPPERS.**—Stuffed green sweet peppers or tomatoes constitute a good luncheon viand. All may be stuffed with either bread crumbs, forced meat or celery.

office, and the rentals, cover the expense of water, heat and light.

Praise the Workmen

The Hayes Brothers cannot speak too highly in commendation of the work done by Contractor John P. Cullen, who had charge of the remodeling of the building. They rate Mr. Cullen at the very top of his calling, and are unstinted in their praise. The task of converting the old block to the present handsome building was one calling for no little skill and judgment, yet Mr. Cullen has met every difficulty successfully, and solved every problem presented. No accident of any kind has occurred. The doors and windows all swing open and shut without friction, and as the Hayes Brothers say, the character of the work done is of the very best.

The building will be open to public inspection tomorrow, and the citizens of Janesville are invited to call and go through it.

The Men in Charge

The remodeling of the building has been in charge of the following firms:  
General Contractor—John P. Cullen, Janesville.

Heating Plant—Sohns, Heating Co., Milwaukee.

Plumbing—McVicar, Bros., Janesville.

Tiling—Urban Durrer, Milwaukee.

Painting—S. Hutchinson & Sons, Janesville.

Galvanized Iron Work—A. W. Cooper, Chicago.

Inside Finishing—Jeffris Co., Janesville.

Elevator—Otis Elevator Co., Chicago.

Plastering—James Shearer, Janesville.

Electric Wiring—Janesville Electric company.

Hardware—H. L. McNamara.

The Tenants

The building contains thirty-six suits of offices, ranging from two to five rooms each. Among those who have engaged quarters in the block, it is said, are the following: Ruger & Ruger, attorneys; Mahoney & Ryan, attorneys; Fred L. Clemens, D. W. Watt, Dr. L. L. Leslie, dentist; Dr. R. R. Powell, dentist; Dr. James Gibson, Dr. Louise P. Crow, Dr. Q. O. Sutherland and the Metropolitan Life Insurance company. D. W. Watt will be the agent for the building. Andrew Holmes has been engaged as janitor and Michael McKeligue will look after the elevator.

Messrs. Dennis and Michael Hayes, who own the building, are to be congratulated on the possession of so handsome an edifice, while the citizens of Janesville are to be congratulated on the fact that two such enterprising men make this city their home. The improvement is the most substantial one made in years and it is the hope of all that results will demonstrate to the Messrs. Hayes, the fact that their faith in the future of Janesville has not been misplaced.

Constructed of Brick, at the Foot of Franklin Street—Large Eastern Leaf Tobacco Firm Propose to Locate in Janesville in Preference to Madison.

Work was commenced today in this city on the erection of a leaf tobacco warehouse that when completed will be as complete a structure as any in the state of Wisconsin. At the foot of South Franklin street this model building is now in course of erection being built by David K. Jeffris, M. G. Jeffris and Fred J. Jeffris. The cost will be several thousand dollars.

The structure will be of brick two stories high and basement. Alderman John Peters has the mason contract. The building will be forty-eight by one hundred and twelve feet and will have a storage capacity of 5,000 cases of leaf tobacco. But it is not alone in the erection of the building that Janesville citizens should feel proud.

Its completion will mean the locating here of a New York leaf tobacco firm that the city of Madison has been trying hard to secure for several months. This firm is Julius Marquise & Company. During the past few months this firm have had an agency in this city. It is now their intention to make Janesville their main buying, shipping and handling point for all their Wisconsin leaf tobacco. By the first of January this New York firm expect to take possession of the Jeffris warehouse.

The new warehouse is in close touch to Chicago & Northwestern sidetracks, which makes an ideal location.

## CLASS SALOON MEN WITH PICKPOCKETS

OLIVER W. STEWART MAKES BOLD REMARKS.

Chairman of the Illinois Prohibition Committee Delivered a Powerful Address in Janesville This Afternoon—Fourth Annual Rally of Rock Co. Prohibitionists at Templars' Hall.

Many members of the Prohibition party in Rock county assembled in Janesville today in attendance at the fourth annual rally. A Good Templars hall on South Main street the session was called to order at 10 o'clock this morning by J. E. Clayton of Milwaukee, who is chairman of the state Prohibition committee.

The hall was well filled there being delegates present from all portions of the county. Every city and town was represented.

The morning was devoted to the transaction of general business and the reading and placing on file of different reports. At noon dinner was served by the ladies who neglected nothing in the way of good things to eat.

At 2 o'clock the meeting was again called to order. Many delegates unable to be present at the morning session were on hand and every seat in the hall was occupied.

The afternoon program was given over to an address delivered by Oliver W. Stewart of Chicago, who is chairman of the Prohibition party in the state of Illinois. Mr. Stewart took for his subject "Good Citizenship." From start to finish he dealt with the existing liquor evil in a masterly way that brought forth loud applause.

"The great question is not whether prohibition will prohibit but it is in the one question if the saloon is to stay will the Christian men of the country go out of partnership with it. Not only is the saloon an evil but licensing is an evil. By our present law the saloon keeper is classed as a good citizen along with the editor, preacher, merchant and farmer. On the other hand I would term him a criminal. The influence of the saloon keeper is worse than that of the pickpocket and in this class of criminals he should be classed as he is bringing ruin on all sides."

Mr. Stewart closed his remarks with words of cheer and stated that his party expected many defeats before gaining victory but that the day was not far distant when the Prohibition party would win the day.

This evening at Court Street M. E. church Mr. Stewart will speak taking for his subject "Christian Citizenship."

## SERVE WARM MEALS AT HIGH SCHOOL

A NEW CUSTOM INAUGURATED HERE YESTERDAY.

Pupils Who Cannot Go Home at Noon No Longer Need to Partake of Cold Dinners—The Cooking Department Came to Their Rescue—Cost Will Be Nominal.

Since public schools have been in vogue in Janesville scholars unable to go home at noon have been obliged to partake of cold meals. But it was left to the Janesville high school to remedy this trouble.

Yesterday Mrs. James, Supt. of the cooking department, served the first warm meals ever cooked in a public school building in the city of Janesville. Twelve scholars sat about a neatly arranged table in the cooking department at the High school building.

Pupils who are taking a course of study in the cooking department acted as cooks and waitresses. And don't think that because the cooking was in the hands of High school girls that everything was not first class. The repast included all the best of dishes from chicken pot pie to ices for desert.

The cost for the meal was nominal as those who are served are only supposed to pay enough to defray expenses. Each day it is the intention to change cooks so that in that way the guests will each be able to take a hand in the cooking.

The cooking department of the High school is almost model one and all conveniences are at hand for the serving of dinner. Several scholars attend the school who are unable to go home at noon and to procure a warm meal at the school at a nominal cost will mean much to them.

## FORCE BADLY SCATTERED.

Aguinaldo's Army is Now Nothing but a Name.

## SPANISH PRISONERS FREED.

Gen. Young Still in Pursuit of the Rebel Leader, Who is Making for Banguet. In the East—Marines Have Been Landed at Vigan.

Washington, Nov. 28.—Gen. Otis reports the situation in the Philippines in the following dispatch to the war department:

"Manila, Nov. 27.—Steamer from San Fabian yesterday brought 115 Spanish prisoners, \$75,000 insurgent government money and other property captured by Lawton's troops near Tayug on 25th. Wheaton's troops, Fowler's company Thirty-third, drove enemy westward from Mangalaren, few miles southwest Dagupan, captured five three-inch muzzle-loading guns, twelve rifles, 12,000 rounds. Maxim cartridges, 1,000 shrapnel, 800 pounds powder and other property; also ninety-four Spanish and seven American prisoners.

"Bell, with Thirty-sixth infantry, is in pursuit, and will march down western Luzon coast. Indications are two or three bodies insurgent troops, numbering probably 500 or more men each, in mountains west of railroad; can be readily handled by MacArthur. They have the bulk of the insurgent artillery, all of which will be captured, unless buried.

## Still Pursues Aguinaldo.

"Young still in pursuit of Aguinaldo, who is heading for Banguet, few miles east of Vigan; Young, with cavalry and scouts, is followed by battalion Thirty-third en route for Vigan by military post road. Young's reception by inhabitants enthusiastic; they give all aid possible. Aguinaldo has collected more than 1,000 of his troops at the north; probably most will desert him. Number small detachments insurgent troops throughout country north of Manila have been captured and inhabitants manifest gratitude for deliverance.

"Indications are that insurgent force south of Manila disintegrating and troops going to their homes. Reports from southern islands favorable. Zamboanga insurgents surrendered to our troops and no trouble anticipated there."

## Marines Land at Vigan.

Later in the day the following dispatch was received from Gen. Otis:

"Oregon landed marines at Vigan yesterday. Young's column at Nainogpacan, twenty miles north of San Fernando, on 23d, from which point passed north into mountains. Troops will relieve marines at Vigan 29th. Bulk of Spanish and American prisoners reported at Banguet, twenty miles east of Vigan. Wheaton, San Fabian, just reports capture of seventy-three more rifles; \$1,100 in money; also that he has been obliged to take the mother and son of Aguinaldo under guard at San Fabian to prevent their murder by natives. They will be sent here at the first opportunity and delivered to friends. Natives in vicinity Bayombong, Nueva Viscaya, offering services to drive out insurgents and request arms. Report only 400 insurgents there.

"Report from Zamboanga says insurgents surrendered heavy artillery to navy, and since have surrendered to Nichols, commanding battalion Twenty-third infantry, 179 rifles, one Nordenfeldt and four breechloading cannon. Order restored in town and vicinity. About eighty Tagalos scattered in mountains."

## Spanish Prisoners Arrive.

Manila, Nov. 28.—Three hundred Spanish prisoners, who escaped from their captors before the American advance, including civil officials of rank, who had been in the hands of the Filipinos for more than a year, and many officers, have arrived at Manila during the past week. The Francisco Reyes brought 100 of them from Gen. Wheaton.

## Mangalaren Is Evacuated.

The insurgents have evacuated Mangalaren, province of Pangasinan, leaving seven American and ninety-four Spanish prisoners, who escaped in the confusion of the Filipino retreat.

## Believe War Is at an End.

Washington, Nov. 28.—President McKinley is so convinced that the insurrection in the Philippines is at an end that he is said to be preparing his message along the line of treating the islands as now under the absolute control and authority of this government. He is confident that before the message goes to congress he will have the confirmation of this position from Gen. Otis.

## Canal Bill to Be Pushed.

Washington, Nov. 28.—One of the first measures of importance which will be introduced in congress will be a Nicaragua canal bill. The bill will be identical with that introduced by Mr. Hepburn in the last congress, which appropriated \$15,000,000, available in sums of \$20,000,000 a year, to be secured by bond issue, and provided that the canal should be constructed by the United States government instead of by private enterprise.
